Working with Bretton, Daniel, and Hannah was a wonderful experience. Learning from and teaching them really helped me succeed in this class! If I had done a little more “above and beyond” research, I would have claimed an ‘A’. Sadly, due to health reasons, I was not able to do a lot/record what I have done.

I think I deserve an A- because I really was trying to learn and understand and do lots, but since that is not a valid grade in this class, I am claiming a B.
